

Color enhancer for matt surfaces

Wet effect color enhancer for all natural stone, limestone, sandstone, marble, granite with honed and brushed finish. Protects from dirt and offers a good water-repellence. The product does not turn yellow and is resistant to wear.

Strong Points

- Revives the natural colour of the surface
- Not film forming
- Does not turn yellow
- UV-resistant
- Antidirt
- Water repellent
- Anti stain
- Anti oil
- Makes the cleaning easier
- Suitable for tables and countertops

Application

SHAKE BEFORE USING. READY TO USE PRODUCT, DO NOT DILUTE.

On clean and dry surfaces apply UNIWET directly onto the surface and spread it out evenly with a microfiber cloth or a mop with circular motions. We recommend to apply small quantities of product in more coats instead of one copious coat. The obtained result is not reversible. To avoid residues on less absorbing or half polished surfaces buff with a clean and dry cloth after the application.

Depending on the absorption and on the desired effect apply a 2nd coat after about 2-3 hours.

Wait at least 48/72 hours before carrying out staining tests, so to allow the product to dry in the porosity of the surface.

For the ordinary maintenance of the treated surface we recommend the regular use of MGP 24 detergent.

Coverage: 1 litre for approx. 18-25m² depending on the finish of the surface and on its absorption.

Warnings

Before using the product, read the toxicological data sheet (MSDS) and the label detailing all risks and the personal protective equipment to be used for a correct use. The data of this technical data sheet is based on reliable information. Despite of this, not knowing either the materials to be treated nor their conditions, the specific characteristics, the processes and finishes they have undergone, the conditions of the treated materials and the way in which the product will be used, we decline any and all responsibility for damage arising from inadequacy of the product for specific and particular applications.

Therefore before using the product, carry out a test on an invisible area of the surface and only when sure about the success, proceed on a larger area. Our responsibility is limited to the cost of the purchased product and therefore we are not liable for damages resulting from negligence or incorrect or different use of the product, from not following these warnings or by other factors that do not depend on the product itself.

Packaging and Storage

Keep the original, sealed container in covered, ventilated, dry environment and keep away from heat or low temperatures.

After the use keep the package well closed, so the product has a shelf life of approx. 36 months.

Box of 15 for 0.25 liter Bottles (Bottles also sold individually)
